John Ellsworth : Carlos the Ant before purchasing it in order to gage whether or not it would be worth my time, and all praised Carlos the Ant:

0 of 0 people found the following review helpful. Criminally insane By Ellen A. I had a bit of difficulty swallowing both the generosity and criminality of "Racehorse". I suppose the ravages of unsuccessful chemotherapy could cause one to become a bit dimented, but really?...? Murder a player on the yacht I'm giving you after your PSTD and Disassociating wives been murdered three times, all at once, by a player in a robbery who was both turning states evidence as well as framing the defendant who daughter is dying from poor judgement of power from an insurance company...I'm mean really?...? Just a tad bit extreme and an itybittybit far-fetched. But still, you are a published author, so who pray tell am I? Not a published author, for certain. You are in fact easy to read, I absolutely loved your first of this series and the second ran close to it. The third was getting a little more macabre but, again, who am I? 0 of 0 people found the following review helpful. Good Fun Read By bflowers Interesting plot and decent characters. Not much character development but not a hindrance to my three stars. Would have and could have given four stars but I have a bit of trouble agreeing with an officer of the court being a partner to a homicide. Other than that little flaw it was a very entertaining tale and a good ending. This was my first book by this author and I plan to read one or two more to see if he "hung up" on the same people over and over or willing to branch out into other areas. Buy and read it. It is worth the money and your time. Bobdonnaf@bellsouth.net 3 of 3 people found the following review helpful. A bang for your buck! By Geri M. Another fantastic thriller by this author. I have read all his books and they keep getting better. A lot of suspense and twists and turns. Can't wait for the next one to come out. Highly recommend this book and all others written by John Ellsworth.

From USA Today best-selling author John Ellsworth. Start with a bank robber and a legal thriller. Carlos has a sick daughter and needs money. He's also an upstanding citizen who pays his taxes, puts in his 40 hours, doesn't drink and carouse, and loves his wife. Still...he has nowhere else to turn. So Carlos gets money the old-fashioned way - he robs banks. The money comes pouring in but then a new man joins the crew and everything tumbles downhill. Criminal charges for armed robbery are brought against Carlos in several states and he needs a heavy hitter to defend him. Carlos calls Michael Gresham for help and the lawyer comes to his aid. But it is going to be the meanest case of Michael's career, as the prosecutor is a woman who means to jab the death needle in Carlos' arm and watch him die. And she has the legal chops to do just that. But she has problems of her own - legal problems, big ones. Add just the right amount of courtroom thrills and financial intrigue. Full of bank robberies and courtroom drama, this legal financial thriller is sure to satisfy even the most ardent Michael Gresham fan, as the trial lawyer walks into a

courtroom where the toughest district attorney and the guiltiest client on the West Coast await him.
